Bottom folding section

The **Powerhouse** Freedom 36 hole Golf trolley has Style and elegance combined. A freshly designed power assisted trolley made from lightweight alloy tubing finished in metallic "Gun Metal Grey".

The Fast action folding mechanism brings the trolley from it's upright position to folded in under 5 seconds. When folded it then locks into position so that the whole trolley can be easily carried.

The wheels use a quick release mechanism. With the flick of your wrist, you can select free wheel or quickly remove them allowing the trolley to be stored in the smallest of space.

The speed is controlled by a "Soft Start" function, using of a revolving control knob at the right side of the handle. Simply turn the control knob to maximum and the trolley will gently increase in speed to your desired setting, no more quick uncontrolled starts.

The integral battery meter shows in 5 stages, the condition of the battery using green light decreasing through yellow and finally to red.

All of this is powered by a 26ah battery. More than enough to get you to 36 holes. With a wheel base of only 56cm (22 inches) and the amazing attention to detail the Freedom Golf Trolley deserves a second look.

### Optional extras:

*Gust buster Umbrella. Umbrella Holder. Score Card. Seat. Canvas Carry Bag. Cup Holder. High Capacity Charger Hedgehog wheels  
Lithium battery 18 or 36 hole*
