1 x 24v Charger
1 x 18+ Hole Lithium Battery
2 x Stabilizer Wheels
1 x Golf Club Carrier
1 x Front Mesh Basket
Tool Kit and Instructions

Picture showing single Lithium battery fitted as standard

The Titan Golf Buggy is designed for the more demanding golfer. The Titan Golf Buggy is more powerful, more stable and will easily handle long demanding golf courses easing over difficult terrain. The buggy comes loaded with lithium power, meaning the Titan requires just one 18-hole lithium battery creating a weight saving of over 45kg or 9 stone from typical lead acid batteries and a significant space saving with the battery measuring just (W)160mm x (L)250mm x (H)200mm (6.25" x 10" x 8").

The Battery is supplied fully protected by a sophisticated specially designed battery management system that constantly monitors every cell to ensure the battery is always optimized for the best performance. Charging is also quicker, a flat battery will charge in around 8 hours.

The Titan accommodates the extra power through four larger fairway friendly rubber tyres that deliver incredible grip and control over difficult terrain, whilst protecting any soft ground from damage. It features 'twisting' chassis technology that enables all four wheels of the buggy to remain firmly on the ground so you always have the ultimate control and through the ever popular double handle bar steering, the Titan is one of the easiest buggies you'll ever drive. So if you want the extra power from your buggy without sacrificing control, look no further than the Titan Golf Buggy.
