

16/22Ah LITHIUM

Lithium batteries, re-write the rules.
Offering superb performance
Day-in, day out

LEAD IS DEAD

IT'S TIME TO CHANGE

Whether you need a replacement battery for your Golf Trolley or Golf Buggy, In the past you may have only been able to consider the size or capacity. In recent times batteries have moved on from traditional heavy lead acid, to hi-performance, light weight **Lithium**.

Some of the main features of **Lithium** Batteries, compared to lead acid equivalents are; they last up to 5 times longer with extended warranties, incredible weight savings, charge in 1/4 of the time and have no "drop of" power when being used.

Powerhouse Golf, where possible now include **Lithium** batteries as standard on all of their products.

Sometimes **Lithium** batteries are considered expensive. However, when you take into account the number of uses you get (1500-2000 cycles) and life an extended life expectancy, the battery offers, not to mention a new charger is also supplied, the price per round is much cheaper than the lead acid equivalent.

If you already have a buggy or trolley, but are only in need of a battery, we can help. All of our Lithium batteries are designed to fit in to existing equipment. So what better time to dump that old heavy lead acid battery for the latest **Lithium** option.

12v 18-27 Hole (16Ah) and (22Ah) GOLF TROLLEY LiFePO4 Lithium Golf Trolley Battery

- Up to 1500-2000 charges life expectancy
- 75% lighter than lead acid • Suitable for all mainstream Golf Trolleys • Charges in under 4.5 hours.
- Weighs a fraction of the weight
- Cannot be overcharged or over used.

The facts...

WEIGH A FRACTION OF LEAD BATTERY ✓

LOWER COST PER ROUND ✓

LESS FATIGUE ON EQUIPMENT ✓

1500-2000 CYCLES ✓

QUICKER CHARGING ✓

LONG WARRANTIES ✓
