The Trailer-2-Go is specifically designed and built for the easy loading and unloading of your **Powerhouse** Golf buggy. The trailer Ramp and main body is made from 1" steel dipped in galvanized finish.

The main surfaces are made from high density fire board and is full water proof making the trailer fully weather resistant for many a year to come.

The styling of the trailer makes it very light to handle and manoeuver. It incorporates all "Indespension" components including 350kg Trailing arm suspension units and high-speed tyres, with integral light board

The trailer is supplied with jockey wheel, mudguards, light board which incorporating stop lights, side lights and indicators. A very compact trailer.

The Trailer-2-Go uses Trailing arm Suspension units and high speed tyres.

FOLDING RAMPS

Aluminum Folding Ramps

Constructed from aluminum incorporating claw fitting. Designed to be folded in the centre making each ramp extend from 45" to a max length of 90". The track surface has a tread raised section for high grip.

- Extended 90"
- Folded length 45"
- Width 11"
- Capacity 175kg per ramp (evenly loaded)
